

NetNumber Receives 2016 Telecom Award as Most Innovative Network Infrastructure Solutions Company in the USA

NetNumber TITAN Also Recognized as Best Signaling & Routing Control Platform

LOWELL, Mass. — August 3, 2016 —NetNumber announced today it is a recipient of a 2016 Telecoms Award from *TMT News Magazine*. According to the magazine, these awards recognize the service providers and technology innovators in the telecom industry for dedication, hard work and client focus. The TMT News subscriber base of more than 82,000 nominate and vote for individuals or companies, and an experienced panel of industry experts select the winners. Visit www.tmt-news.com/ to read the winners supplement and full winners list.

NetNumber has been named the “Most Innovative Network Solutions Company in the USA” and its TITAN platform has been recognized as “Best Signaling and Routing Control Platform.” NetNumber TITAN, the industry’s most robust centralized signaling and routing (CSRC) platform, provides a common, virtualized infrastructure for all signaling control, routing policy enforcement and subscriber database services in the network. It uniquely delivers centralized provisioning and management combined with a powerful distributed, in-memory database replication method that enables all signal processing to happen at the optimal location in an operator’s network.

“NetNumber is honored to be recognized by *TMT News* and by the telecom industry,” said Kim Gibbons, NetNumber chief marketing officer. “This award validates our unique approach to solving many critical operator challenges. Operators are looking for solutions that provide service agility and reduce Opex and Capex investment, while easing the transition to next-generation networks. Our innovative software platform TITAN enables operators to deploy next-generation services faster and with lower Opex investment, while also easing the transition from legacy networks to IP.”

“The telecoms industry is a vital aspect of our lives, and those who work within it are responsible for the livelihoods of thousands, if not millions, of people,” said Tom Jones, Telecoms awards

coordinator. “As such, I am proud to turn the spotlight on our deserving winners, and wish them every success in the future.”

TITAN is transforming how operators deliver new services to their customers while significantly simplifying the network core and reducing operating costs. Today, TITAN is deployed on more than 350 servers on five continents, and supports more than 200 billion transactions per month.
