

## **NetNumber TITAN Named “Best Core Network Product” at 5G & LTE North America**

LOWELL, Mass. — Nov. 16, 2016 —NetNumber announced today its TITAN platform received the Best Core Network Product award at the 5G and LTE North America conference.

NetNumber TITAN, the industry’s most robust centralized signaling and routing (CSRC) platform, provides a common, virtualized infrastructure for all signaling control, routing policy enforcement and subscriber database services in the network. It uniquely delivers centralized provisioning and management combined with a powerful distributed, in-memory database replication method that enables all signal processing to happen at the optimal location in an operator’s network.

“NetNumber is honored our TITAN platform has been recognized as the best core network product in the industry,” said Kim Gibbons, NetNumber chief marketing officer. “NetNumber is focused on changing how carriers architect, acquire, deploy and manage their core networks. Our TITAN platform accelerates the implementation of new services across multiple generations of networks, while dramatically simplifying the core and reducing operating costs. The Best Core Network Product award celebrates our unique approach to solving many critical operator challenges.”

TITAN is transforming how operators deliver new services to their customers while significantly simplifying the network core and reducing operating costs. Today, TITAN is deployed on more than 450 servers on six continents, and supports more than 200 billion transactions per month.
