

## **NetNumber Security Expert to Advise on Protecting Carrier Signaling Networks in Layer123 Webinar**

LOWELL, Mass. — Dec. 14, 2017

### **WHO:**

Pieter Veenstra, NetNumber senior manager, Product Development for Security and Routing, will deliver a presentation on signaling security as part of the Layer123 Network Transformation Awards webinar series. Mr. Veenstra is a recognized signaling security expert with a 30-year background as a network and enterprise architect at KPN. He serves as the current chairman of the SIGFW working group for the development of SS7 and Diameter signaling firewall guidelines in the GSMA Fraud and Security Working Group.

### **WHEN:**

Layer123 will host the webinar featuring Mr. Veenstra on Tuesday, December 19, 2017 at 8:00 am PT/11:00 am ET/16:00 CET.

### **WHERE:**

Register for the live webinar and Q&A or to view the on-demand recording at a later date at <https://www.layer123.com/the-winners>

### **WHAT:**

Signaling security is a critical concern for operators today. The threats have become more complex, and facilitate manipulations of SS7 and Diameter networks for banking fraud, authentication theft, location tracking, eavesdropping and denial of services attacks.

NetNumber TITAN was awarded the “Best New Security Solution” at SDN NFV World Congress in October 2017. During this webinar, Mr. Veenstra will examine the changing threat landscape facing carriers today and discuss how the NetNumber Signaling Firewall addresses these critical security challenges. Time permitting, he will also take questions live from the audience.

###

### **About NetNumber**

NetNumber, Inc. brings more than 17 years of experience delivering innovative signaling control solutions that enable carriers to accelerate implementation of new services across multiple generations of networks, while dramatically simplifying the core network and reducing operating costs. Today, we are the leading provider of Centralized Signaling and Routing Control (CSRC) solutions to the global communications industry. Visit [www.netnumber.com](http://www.netnumber.com) for more information. Connect with us on Twitter, LinkedIn, Google+ and Facebook.

**About Network Transformation Awards (NetTA)**

In its first year, the Network Transformations Awards, part of this year's SDN NFV World Congress, highlights the industry's most innovative people and companies by recognising their most significant achievements in accelerating Network Transformation over the last 12 months.

The shortlist and winners were selected using a transparent and robust process determined by an [independent judging panel](#) that were invited from SDN NFV Congress Analyst Partners and was designed to make selection with the highest credibility and integrity.
