

NetNumber Named Finalist for CTIA Startup Lab

LOWELL, Mass. — September 2, 2014 — NetNumber announced today it has been selected as a CTIA Startup Lab program finalist. NetNumber provides a common, virtualized infrastructure called TITAN for all signaling control, policy enforcement and subscriber database services in the network. TITAN is transforming how operators deliver new high-definition voice and video services to their customers while drastically simplifying the network core and reducing operating costs.

“NetNumber is honored to be selected as a CTIA Startup Lab finalist. The nomination by the Telecom Council of Silicon Valley and this recognition by CTIA reinforces the unique role we are playing to reduce the negative impact of signaling traffic on fixed and mobile networks,” said Brad Boston, president and CEO of NetNumber. “NetNumber is focused on helping carriers deliver new services for their customers more quickly, while managing the transition to next-generation networks.”

Today, TITAN is deployed on more than 350 servers on five continents, and supports more than 200 billion transactions per month.

Companies were nominated by CTIA and mobile community leaders from [1871](#), [Apptual](#), [Austin Technology Incubator](#), [BootstrapLabs](#), [Hackers and Founders](#), [LaunchHub](#), [MoDev](#), [Mobile Monday](#), [Momentum](#), [Orange Labs](#), [RocketSpace](#), [Telecom Council](#) and [University College of London - DECIDE](#). Finalists were chosen by the CTIA Investor Panel comprised of judges from [Blumberg Capital](#), [Caten McGuire](#), [Cooley LLP](#), [Docomo Capital](#), [Ericsson](#), [Fortify Ventures](#), [Honda](#), [Intel Capital](#), [Khosla Ventures](#), [LG Electronics Mobile](#), [mBlox](#), [Orange Labs](#), [Samsung](#), [Sony Growth Ventures and Innovation](#), [Sprint](#), [T-Mobile](#) and [Verizon Wireless](#).

Designed to help seed and growth stage startups secure accelerated connections and investments in the mobile industry, the [CTIA Startup Lab program](#) will take place at [Super Mobility Week](#) in Las Vegas, September 9-11, as part of [CTIA MobileTalks](#).
