

FOR IMMEDIATE RELEASE

NetNumber to Sponsor GENBAND's Perspectives14 Summit

LOWELL, Mass. — June 5, 2014 — NetNumber today announced that it is an Exhibit Sponsor at GENBAND's [Perspectives14](#) Annual Customer and Partner Summit, held June 9-12, 2014 at the Hyatt Regency Grand Cypress in Orlando, FL. Perspectives14 brings together the brightest minds in the communications, software, service provider, channel partner and enterprise communities to share the latest trends, issues and opportunities affecting the communications landscape.

“NetNumber is pleased to sponsor Perspectives14 as we expand our relationship with GENBAND,” said Kim Gibbons, Chief Marketing Officer of NetNumber. “We look forward to influencing the dialogue concerning the most critical challenges carriers face as they transition their networks from legacy to next-generation LTE and IMS.”

“Without the loyal support of our partners and sponsors we could not make Perspectives14 happen – so we are delighted to have NetNumber as a sponsor,” said Brad Bush, Chief Marketing Officer of GENBAND. “We have a great event planned for the more than 700 attendees that have registered. One of the most exciting elements of Perspectives14 will be our Solutions Showcase where our partners and sponsors will be featuring innovative solutions that are driving the rapid change in our industry.”

NetNumber will showcase its flagship product, TITAN, during the event. TITAN provides a common NFV infrastructure for all signaling control, policy enforcement and subscriber database services in the network. TITAN is transforming how operators deliver new high-definition voice and video services to their customers while drastically simplifying the network core and reducing operating costs. Today, NetNumber TITAN is deployed in tier one carrier networks on more than 350 servers across five continents.

About NetNumber

NetNumber, Inc. brings 14 years of experience delivering innovative signaling control solutions that enable carriers to accelerate implementation of new services across multiple generations of networks, while dramatically simplifying the core network and reducing operating costs. Today, we are the leading provider of converged signaling, routing and database services to the global communications industry. Visit www.netnumber.com for more information.
